Problem 1 – Act it out

See attached sheet – Farm animals

Problem 2 – Act it out

See attached sheet - jogging

Challenge – Trial & error

1 The Swipems Cricket Club opposed the Blockers Club one Saturday afternoon. Henry, for the Swipems, scored 145, which was as many as Sam, Daniel and Jack together. Sam scored 35 more than Jack and 60 more than Daniel.

What were Sam's, Jack's and Daniel's scores?

Hint – When you have a total to aim for, divide first then adjust up or down.

Problem solving -

Do these problems – at least one. Cut it out attach your working out & put it in the problem solving box at school for a chance to win. Traveller are welcome to join also.
